

KING JULIEN'S GARDEN PARTY GUIDE

STEP
1

PLANNING THE GARDEN PARTY

Look at your available space and consider the following:

Is there a good spotlight? You want to make sure there's enough sunlight or pick plants that grow best in the shade.

Who do I want at the party? Think about what you want to plant in relation to the available space.

What's the size of the dance floor? You don't want to overcrowd, so make sure you have enough space for all the party animals.

STEP
2

PREP THE DANCE FLOOR SOIL

Use a shovel or rake to loosen the soil (12 to 18 inches deep) so it's ready to tango.

When digging the soil, make sure it's damp and not too dry or too wet.

If you want to make the party stronger, spread some sort of material to enrich the soil 4 to 6 inches over the top and let it sit for a few days before working it in to the soil.

STEP
3

INVITE THE PLANT GUESTS

Everyone has their own signature dance move, so refer to individual seed packets for planting instructions.

General tips: plant seeds in a row 2 to 3 inches deep and 4 to 5 inches apart.

Avoid overcrowding by planting each row 2 to 4 feet apart so everyone has room to get their groove on.

STEP
4

WATCH THEM GROW

Keep the party going and make sure your plants get enough water, but not too much!

STEP
5

MAINTENANCE

Don't let the party crashers in, so apply mulch to keep the weeds out.
